

Risk Management Services

1. Meetings with your Leadership
 - We tailor our services to your specific operation.
 - We educate you about other perspectives, such as OSHA.
 - We provide you with an opportunity to reduce monetary and liability exposures.
 - o Ex. OSHA-Learning what regulatory agencies look for and taking steps to correct issues can protect your assets.
 - o How to 'speak the language' to minimize exposure to regulatory action
 - We provide you with an opportunity to reduce insurance premiums.
 - o Ex. Insurance Underwriters
 - You likely are already doing "Safety" in many forms.
 - Learning to 'speak the language' and positively reflect your efforts can help reduce premiums.
 - We provide you an opportunity to identify human factors which impact profit within your operations.
 - o Ex. Safety culture/human nature issues within your operations
2. Walk-around Hazard Assessments
 - We provide hazard identification specific to your facilities and operations.
3. Safety Program Visioning Process
 - Assessment
 - Real time assessment...where you stand today
 - Benchmark
 - Vision/Goal Setting...where you would like to be
 - Positive Proactive Strategies
 - 'Hard Safety'-Concrete/Regulatory
 - 'Soft Safety'-Leadership Skills
4. We assist you in organizing your documentation process to protect your assets and reflect your efforts.
 - Ex. OSHA-If you didn't write it down (document it), you didn't do it.
 - Training
 - Risk Assessment/Job Safety Analysis
 - Improvements
5. We assist in improving your Safety Culture.
6. We assist in improving your Safety Leadership.
7. We provide resources to help you achieve your program goals.
8. We conduct safety training.
9. We provide assistance with defense in the case of regulatory action.
10. We assist Management with post-incident Risk Management activities that may include:
 - Assistance with documentation
 - Assistance with incident investigation
 - Preparation/orientation for interaction with regulatory agencies
 - Advocate/assist Management with preparation of defense in the case of regulatory action
